SUMMARY

Frontend engineer with five years of experience building React and TypeScript applications for e-commerce and SaaS products. Focused on performance, accessibility and maintainable component systems. Comfortable owning features end to end, from design review to production monitoring.

EXPERIENCE

Frontend Engineer · Lumen Commerce · Portland, OR

Mar 2022 - Present

- Rebuilt the checkout flow in React 18 and TypeScript, cutting median time-to-interactive from 4.1 s to 1.8 s and lifting conversion by 6%.
- Led the migration of 140 legacy class components to hooks and a shared design system built on Radix primitives and Tailwind CSS.
- Introduced Playwright end-to-end tests for the purchase path; production checkout incidents dropped from 9 to 2 per quarter.
- Worked with design to reach WCAG 2.1 AA on all checkout screens, verified with axe and manual screen-reader testing.
- Mentored two junior engineers through code review and pairing; both were promoted within 18 months.

Frontend Developer · Brightpath Software · Remote

Jun 2019 - Feb 2022

- Built the customer dashboard for a B2B analytics product using React, Redux Toolkit and Recharts.
- Implemented server-side rendering with Next.js for marketing pages, growing organic traffic by 35% in two quarters.
- Created a GraphQL client layer with Apollo, including cache normalization and optimistic updates.
- Reduced the JavaScript bundle by 40% through code splitting and removal of unused dependencies.

Junior Web Developer · Harbor Digital Agency · Portland, OR

Jan 2018 - May 2019

- Delivered more than 20 responsive marketing sites with HTML, SCSS and vanilla JavaScript.
- Maintained WordPress themes and integrated third-party forms and analytics.
